Education

GENERAL ASSEMBLY

Web Development Immersive
March 2021 - June 2021

CODER ACADEMY

Software Development Course
February 2017 - March 2017

Tools used

- JavaScript
- Node.js
- Express
- React
- Ruby on Rails
- PostgreSQL
- HTML 5
- CSS 3
- jQuery
- Vue.js
- Clouinary
- Heroku
- MongoDB
- SQLite
- Git
- Sinatra

About

Early in life my innate technical curiosity showed through in my hobbies that were always technical pursuits.

On finishing high school I was given the opportunity to work within the electrical industry which continued to satisfy my strong interest in technology for many years.

During that time I have developed a broad set of transferable skills. Leveraging these abilities coupled with my desire to learn new things allows me to hit the ground running, as I up-skill into software engineering.

Experience

QUICK ELECTRICS

Self Employed Electrician

2015 - Present

- Project management from design to completion
- Team leadership and mentorship to apprentices
- Tactful and patient communicator
- Effective problem solving skills in complex systems
